Directions for use:

Each food ration should be adapted to the animal's conditions. stage of development, age, physical activity or lack thereof, environmental conditions (heat, cold...), physiological changes... Dogs with low activity require less energy intake, so their diet should be adjusted proportionally to prevent the risk of obesity. Whether you feed your dog once or twice a day, stick to the same schedule.

If this food is new to your dog, mix it gradually with the old food.

Always provide your dog clean and fresh water.

Conservation and storage:

12 months when the product is kept in its original airtight packaging, in a dry place, protected from light and a heat source. Use preferably before the expiration date indicated on the packaging
